

What Exactly Is HGH?

Human Growth Hormone (HGH) is a single-chain peptide hormone produced by the pituitary gland, the master gland in the body. This is the hormone that helps you grow throughout childhood, hence the word "growth." Around the age of 20 HGH is at its peak, and then plummets around the age of 25.

This is when the dreadful aging process begins, as this hormone slowly declines for the rest of your life.

But don't worry, growing isn't the only thing HGH is good for. Many experts say that elevating growth hormone when you are older can bring back your levels to when you were in your 20's.

Most people experience these anti-aging benefits in as little as two weeks. **

Some expected benefits include:

- Enhanced libido
- Improve memory
- Improve sleep
- Better mood
- Promotes hair growth
- Greater muscle tone
- Increase in strength
- Healthier hair, skin & nails
- Increased joint mobility
- Increased bone density
- Fat loss (especially around the mid-section)

What is Somaderm™ Gel?

SOMADERM™ Gel provides a convenient, non-invasive supply of human growth hormone. This transdermal formula is registered by the FDA and contains the **highest legal dose** of the hormone, available without a prescription.

SOMADERM™ Gel may be used for many reasons, such as delaying the effects of aging and even to treat those individuals who experience low levels of human growth hormone.

**The Only FDA Registered Transdermal
OTC HGH Product
available without a prescription!**

Active Ingredients

1. GLANDULA SUPRARENALIS SUIS 6x
2. THYROIDINUM 8x
3. SOMATROPIN 30x

May experience blood pressure normalizes†
May experience heart rate improves†
May experience grayed hair begins to return to natural color†

† THESE BENEFITS ARE BASED ON THE EXPERIENCES OF CUSTOMERS USING SOMADERM™ GEL OVER THE PAST 13 YEARS.

Recommended Use:

Apply 1 full pump in the morning and 1 full pump in the evening: 3 weeks on, 1 week off; or, 5 days on, 2 days off.

For intensive use, apply twice in the morning and twice at night. Cycling this way will promote the body to turn up its stored hormone production.

It is very important to cycle this supplement. With continuous use, the body is allowed to metabolize excessive amounts of HGH; hence, stimulating our body's own natural production.

APPLICATION

Since hormones are stored in the fatty tissue layer, SOMADERM™ Gel should always be applied to the thin areas of skin, wherever veins are visible. This will ensure that SOMADERM™ Gel will be transported directly to the bloodstream. You may apply SOMADERM™ Gel to your underarms, forearms, wrists, and behind the knees. Applied locations should be rotated so that no area of the skin gets overused.
